

INTERNATIONAL MURAL PROJECT / N'DJAMENA – CHAD

Funded by : **PAINTING A NEW WORLD ORGANIZATION**

Realization: **BORSORTA DJIMIRA – OUSMANE KARA - ALLADOUM KONDE – DOUNIA TOG-YANGAR**

We sincerely thank Andre Chatelain and Agnes Jorgensen; founders of the Organization PAINTING A NEW WORLD, for their dedication to help young African artists through art including my team and myself for the past 3 years. They supported us all these years to sell and promote our work on the international market and also recently to fund a mural we created in a school of N'Djamena to help through art to bring awareness and education to students about global humanitarian issues.

The team.

Here are the pictures showing their humanitarian action in our country CHAD.

Tha HOLY FLAME school complex..

Day 1: With the approval of the Scool Director, early in the morning, Kara and me (BORSORTA) came to define the area to be painted.

When the area was defined our two friends (DOUNIA and KONDI) came to help us.

After applying the undercoat and let it dry, we reproduced our drawings.

Drawing together.

Day 2: We did the background.

Day 3: under the curious observations of children and passers-by, we were finalizing our mural.

When the mural was complete I added the PNMW logo.

The Director, very happy and pleased with our work, wanted a lasting souvenir.

Here is our mural that talks about the fight against desertification. We represented the students of this school being happily planting seedlings.
